#### ANALYSIS & ACTION TAKEN REPORT ON FEEDBACK FROM STUDENTS 2016 – 2017 to 2018 - 2019

As Sakthi College of Arts and Science for Women is a self-financing institution, there always exists an instability in the service of the teachers. At this juncture, the prime focus of the college has to be on developing the attributes of every teacher to suit the academic expectations of the students and sustain the quality of education, offered by the institution.

During the academic years 2016 - 2017, 2017 - 2018 & 2018 - 2019, the Feedback system followed by the institution was different. The outgoing students responded to the feedback questionnaire, given to them. The questionnaire was framed to check the academic performance of individual teachers of the department. The criteria used to measure the performance level were:

- + Preparation for the Classes
- 4 Revision and Model Questions and
- + Rapport with Students.

The questionnaire had been prepared separately for each department and the learners of the Programmes, conducted by the particular department responded. The total responses are calculated and presented in the form of graphical representation. A study of the response to each parameter and the action taken for the improvement of standard in the PG & Research Department of Computer Science and PG & Research Department of Mathematics is given below.

	2016 – 2	2017 to 2018 - 2019						
Parameter	Analysis	Action Taken Report	Activity Done					
Academic Performance of the HoD	Majority of the students are satisfied with the administration of the Head of the Department. She is capable of comprehending the needs of the students and fulfilling them	Departments are good at administrative and academic works, related to the department. So it is decided that they will continue their service	Board of Studies for in Mother Teresa Women's University, Kodaikanal on 04.04.2018. And took part in the Central Evaluation work					

		external academic exposure of the Heads of the departments must be high. So they are advised to attend BoS meetings, Central Evaluation work etc.	Mother Teresa Women's University, Kodaikanal from 06.12.2017 to 12.12.2017.
Punctuality & Regularity	In keeping up punctuality and being regular in handing classes, some of the newly recruited teachers seem to be in a setback	Teachers are guided to maintain Work Diary, entering their day's schedule.	Monitoring the work performance is made still more strict.
Preparation for the Classes	In preparing the lesson content for the classes and academic delivery, two teachers seem to be sluggish	The Head of the department trains the newly appointed teachers in the method of preparing Lesson Plan for the classes.	Teachers are given permission to atted Orientation, Refresher and short-term courses.
Teaching Methodology	Senior teachers have proved to be good in adopting various teaching strategies, wherein the newly appointed staff need improvement.	At the beginning of the academic year, Orientation Programmes for teachers are planned.	Orientation and Academic Council Meeting is conducted on 19.06.2017 & 20.06.2017.
Revision and Model Questions	The department seems to be methodical in conducting the academic work. So the satisfaction among the students is high.	The teachers are advised to conduct simple class tests and discuss the pattern of the question papers in the class.	The evaluation pattern, conduct of CIE and marking scheme are elaborated to the teachers by the Head of the institution.
Rapport with Students	All the faculty in the department seem to maintain a good rapport with the students.	The Mentoring System is encouraged more so that a healthy relationship between the teachers and the students will be improved.	Every teacher in the department becomes a mentor and takes care of the mentors allotted to her.

# Feedback Analysis & Action Taken / 2020 - 2021

The questionnaire was sent through the online platform, Google Forms. The link was served to the current set of students and the responses were collected. All the respondents answered all the questions. The graphical representation was prepared on the basis of the options chosen by the respondents.

Learning outcomes of the Programme (in terms of skills, concepts, knowledge, analytical abilities, or broadening perspectives)	Comparing the previous year responses. The there is an increasing knowledge among the students about the skills that can be achieved through the Programme they learn.	More Internship Training Programmes, Hands-on- training Programmes and Field Visits have been arranged to improve the level of attainment of learning outcomes.
The adequacy and relevancy of the syllabus	The percentage of stakeholders who could not grasp the relevancy of the syllabus has become less.	The students are asked to pursue more number of Add-on courses, offered by the institution, so that the relevancy of the syllabus could be fulfilled.
Depth of the course content (syllabus)	Nearly 7% of the learners feel the five units in the course content does not hold enough challenging material	The course content is complemented by the advice given given to the students to do extra reading and utilizing the library resources.
The importance given to the skill-oriented courses	Many the respondents are satisfied with the skill-based courses, offered by the college.	No alterations needed in the present syllabus.
The compatibility between your background and the Programme	A few respondents feel the coordination between their background and the Programme they learn is less.	To make the students come out of their shells, Spoken English and Communicative English Courses are given.
The coverage of the syllabus by the teachers	Majority of the students is of the opinion that the syllabus covering work done by theteachers is satisfactory.	The Heads of the departments monitor the work assigned and the completion of the work by the teachers regularly.
The library holdings for the courses	A few students expect more reference books in the library. So they feel the library does not cater to their needs.	The library has been enriched with more number of books and availability of e-resources.
The internal and external evaluation system of the college	The learners are satisfied with the evaluation system followed by the faculty.	No alterations nor modifications needed in the present pattern of examinations.
Overall rating of the Programme	Majority of the students are satisfied with the Programme they study.	The number of students who pursue their higher studies has increased.

# Feedback Analysis & Action Taken / 2020 - 2021

The questionnaire was sent through the online platform, Google Forms. The link was served to the alumni and the responses were collected. All the respondents answered all the questions. The graphical representation was prepared on the basis of the options chosen by the respondents.

		to represent the matter. Discussed.

Learning outcomes of the Programme, in terms of skills, concepts, knowledge, analytical abilities are high.	The Alumni of the college have comprehended the fact that they have attained all the expected outcomes of the Programme.	Yet, there is a mild dissatisfaction that the skills have not been attained fully. More internship and Hands-on-training programmes have been planned to the present set of students.
The OBE based syllabus is really appreciable.	The alumni no more feel alienated from the OBE syllabus.	The POs and COs have been made known to the current set of students so that they could comprehend the usefulness of the OBE based syllabus.
The new courses introduced	Most of the respondents are satisfied with the new courses introduced in the curriculum.	The present students need introduction to the new and innovative courses which will promote them as researchers.
The number of courses in a Programme is normal.	The alumni feel that the number of courses, offered in the common curriculum is too high.	The courses are fit in as per the demands of the common structure. So suggestions will be given by the teachers in the next Board of studies to merge courses and make the number less.
The college gives equal importance to the co-curricular activities.	Most of the alumni are satisfied with the chances given to them to take part in all academics related activities.	The administration of the college encourages the students to participate in co-curricular and extracurricular activities. So no alterations are needed.
I feel I am in no way inferior to the graduates of the same Programme from other institutions.	The alumni are content and happy about their almamater.	The confidence and happiness of the alumni by being a student of the college is appreciable. So there are no alterations needed.
The educational standards of the college are in steady increase.	On the whole, the graduates of the college are proud of being a part of it because of the high educational standards.	Yet more innovative methods are thought about to increase the standard of education.

#### **Graphical Interpretation of the Responses**

The questionnaire was sent through Google Forms, for the students to respond. All teachers responded to all the questions. The cumulative response of the faculty is collected in the form of graphical interpretation. Individual attention is given to the questions and responses and the answer is arrived at.

Employability is the prime objective of the women students, joining Sakthi College of Arts and Science. The Sakthians carry many constructive attributes on the completion of their Academic Programme. It is high time that the IQAC reach some of the employers of its alumnae to collect the opinions they have gained on the performance of the graduates. It is appreciable that 58 employers have responded to the questionnaire sent to them.

The feedback collected from the employers of the students of the institution shows that 85 per cent of them are satisfied with the work efficiency, resolving workplace challenges, finding practical solution to the workplace problems and the enthusiasm shown in working even beyond the scheduled working hours. Still, the technical and organizing skills of the students need to be focused more. It is decided to conduct capacity building and skill enhancement programmes.
