POLICY DOCUMENT ON CREATING SUSTAINING GREEN CAMPUS

Defining 'Green Campus':

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices. By activating this concept, an institution can have the opportunity to take the lead in creating sustainable solutions to environmental, social and economic needs of mankind. Hence, Sakthi College of Arts and Science, Oddanchatram has rolled out a Policy Document spelling out the strategies, plans and other allied tasks.

The community of the college believes that everyone has to work out the strategies to implement green campus initiatives. These strategies are incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. Every individual of the college works to foster a culture of self-sustainability and make the entire campus environmental friendly.

Responsibilities of Each member:

The impetus for a successful Green Campus must begin at the top and emanate throughout the rest of the campus. With a strong message of commitment and involvement, the given plans are to be executed by each member:

- Activate power management features on your computer and monitor so that it will go into low power "sleep" mode when you are not working on it.
- Turn off your monitor when you leave your working table.
- Activate power management features on your laser printer.
- Whenever possible, shut down the computers rather than logging off.
- Turn off unnecessary lights and use daylight instead.
- Avoid the use of decorative lighting.
- Use LED or compact fluorescent bulbs.
- Keep lights off in conference rooms, classrooms, lecture halls when they are not in use. Use the fans only when they are needed.
- Unplug appliances not plugged into power strips (like Laptops, Refrigerators, Air-conditioners, Printers, Mobile Chargers etc.)
- Protect the flora and fauna in the campus.

Thus, Sakthi College of Arts and Science stretches its arms towards reaching a perfect Green Campus.

CIRCULAR

21.06.2016

The college envisions a Clean and Green Campus where environmental friendly practices and education combine to promote sustainable and eco-friendly practices. To move towards this best practice, the staff and the students are instructed to follow the given regulations for the welfare of the college.

- Comprehending the Green Policy Document uploaded in the college website.
- Reducing the uses of non-renewable sources of energy.
- Gaining awareness of the renewable sources of energy.
- Resolving to participate in the joint effort of creating a Green Campus.

In this regard, I expect the Heads of the departments to disseminate this message to every member of your department and motivate them to be constructive.

S. Karitha

As we all know, the Green Campus Initiative started by us last year has been progressing well with the cooperation of the college community. The green campus concept offers the college an opportunity to take the lead in redefining its environmental culture through instilling environmental ethics. Yet, still more, we can improve and bring in a clean and Green campus through adopting practicing and promoting certain environmental friendly practices among students and staff. These practices are suggested below and you are advised to follow them.

- Availing the college bus service provided to all the staff members of the college.
- Motivating the staff and the students to use individual vehicles.

Thank you for the cooperation and your participation in the Green Campus Initiative.

I am happy that the awareness on creating and protecting the Green Campus has increased a lot among the college community. Ye more, by implementing certain good practices, we can set forth our college campus as a model to the stakeholders as well as the society in general. This will be the primary Beyond the Campus Activity of ours.

In this regard, you are asked to instruct the students towards the Ban Plastics Movement. These instructions must be followed strictly:

- Avoid using plastic containers to carry drinking water and other food items.
- Be conscious of the hazardous results of using Single Use Plastics and avoid them.
- Maintain the fame that our campus has gained as Plastic-free and Eco-friendly.

Let us do joint venture in achieving our goal.

I bring to your kind attention that by the joint and dedicated efforts taken by all of us, our college campus is marching towards the status of being the Green Campus. I appreciate the coordination of the staff and the students in this regard.

I am happy to inform you that the Management is ready to aid us in

- Creating Organic farming and
- Nurturing Herbal Garden.
- Facilitating the arrival of more flora and fauna to the campus

The Eco-club of our college is ready you involve in this mission. The consciousness of protecting and preserving the Nature and environment is primary and so I expect you to disseminate this message to all.

As the college is getting ready for the National Accreditation and Assessment Process, a rigorous check on the Green Campus Initiatives is needed and we need the cooperation and monitoring of the Heads of the Departments in this regard. In addition to the efforts taken by us all these years, you are requested to instruct the staff and the students of certain other activities:

- None is allowed to carry plastic water bottles or tiffin boxes.
- Plucking away flowers or leaves from the plants is strictly prohibited.
- Students can do the organic farming work in turn so that it will be a sort of experiential learning to them.

We are sure we will attain a perfect Green Campus and thus render our service in protecting the environment.
