

## INSTITUTIONAL DISTINCTIVENESS

### PRODUCING ELIGIBLE SPORTS WOMEN FOR KHELO INDIA SCHEME

The importance of sports and fitness in one's life is invaluable. Playing sports inculcates team spirit, develops strategic and analytical thinking, leadership skills, goal setting and risk taking. A fit and healthy individual leads to an equally healthy society and strong nation. Sports is an extremely important component for the overall development of our nation. India, in the last few years has made steady progress in the field of sports. Sports, combined with academics, develop in students the virtues of tolerance, involvement, community spirit and leadership.

Sakthi College of Arts and Science is well-known in the locality for creating invincible records in the field of sports. The ultimate aim of the college is to showcase the tremendous potential of its students at a global platform. The management comprehends its responsibility to inspire young talent, give them top-notch infrastructure and training of the highest level. This great support from the management and the strong spirit of the women players has enabled the latter to demonstrate their true potential. It is sure the college will soon realize its dream of becoming a sports super power.

The college holds the pride of being one among the few institutions, creating an invincible record in sports. In its fourteen years of history, the college record has been overwhelmed with records of victory.

The Khelo India programme has been introduced to revive the sports culture in India at the grass-root level by building a strong framework for all sports played in our country and establish India as a great sporting nation.

Sakthi College of Arts and Science feels exhilarated to say the Kabaddi players of the college have become eligible to apply for Khelo India Scheme by representing the Mother Teresa University Team at the All India Level and secured the Third Position.
